

# Know Love (OTR Remix)

[RKCB](#)

We don't really talk too often  
'Cause I don't wanna tell you I believe  
You're just another ghost I'm stalking  
My story's in the winded whispered  
Things I'd rather see I want this time to mean something to me  
I have to feel my blood stop boiling  
If all we do is grow apart then  
Can we ever get back to a seed? We don't know love  
Till it's taken from us  
We don't know love  
We don't know love  
Razor at the story I was told  
Of when we were awake, alone and cold  
Up against the only truth we know  
With every question, is just another myth to tell our own And I want this time to mean  
something to me  
I'll have to feel my blood boiling,  
If all we do is grow apart then  
Can we ever get back to the seed? We don't know love  
Till it's taken from us  
We don't know love  
We don't know love  
Till it's taken from us  
We don't know love We don't, we don't, we don't  
We don't, we don't know love  
We don't, we don't, we don't  
We don't know love  
Till it's taken from us  
We don't know love  
We don't know love  
Till it's taken from us  
We don't know love We don't know love  
Till it's taken from us We don't know love
