

# Damn Good Friends

Elle Varner

(Verse 1)

Thought I'd  
Slide past the walls of your heart like  
You're from the fly taking my time  
Before revealing my  
True intention  
But you're so impossible to suggest  
When  
You like us just the way we is...  
Please pardon me for my interjection...

([Chorus])

I long for you  
It kills me to pretend  
I'm not in love when I so am  
But you don't understand  
That we're such  
Damn good friends  
We could be a whole lot more [2x]  
And we're such damn good friends  
I long for you  
It kills me to pretend  
I'm not in love when I so am  
But you don't understand  
That we're such  
Damn good friends  
We could be a whole lot more (2x)  
And we're such damn good friends

(Verse 2)

Two puzzles  
Identical with the same piece  
Missing from both never complete  
Never achieving their  
True perfection  
So why go scour the earth for the missed piece  
Maybe the piece is in our kiss  
Maybe the answers in my direction

(Chorus)
