

# Say My Name

## Lil Yachty

I want you to say my name, say my name  
Say my, say my name, say my name right now  
I want you to say my name, say my name  
Say my, say my name, baby, say my name, baby loud  
I want you to say my name, say my name  
Say my, say my name, say my name in the clouds  
I want you to say my name, say my name  
Say my, say my name, baby, say my name, baby say my name loud I'm about to kill this scene  
Got a Billie Jean by my side  
And my wrist all bling blaow  
I got pictures in the magazine  
Gettin' chauffeured 'round  
While my bad bitch smokin' on loud  
If you had seen half the shit I've seen  
You would prolly fiend, prolly fiend for a taste of the clout  
Always number 9 on a nigga jeans  
Gang, gang so deep walkin' 'round like I'm walkin' with the crowd  
Uh, I want you to say my name, say my, say my name  
Say my name, say my, say my name, say my name right now  
I want you to say my, say my name, say my name  
Say my, say my name, say my name, say my name loud  
I want you to say my, say my name, say my name  
Say my, say my name, say my name in the crowd  
I want you to say my, say my name, say my name  
Say my, say my name, say my name right now  
Say my name now  
Say my name loud  
Every time I wake up, I read silly things  
Internet tryna take a nigga, take a nigga out his clout  
All these bitches hatin' on a nigga dreams  
Tryna make sure they do anything to make sure that I fail  
I just hit a lick on the runway  
I'll be back before Sunday  
Gotta get this money now  
My brother used to sleep in a Hyundai  
Now he spent about a hundred G's on a fun day, wow  
And just when I thought about giving up  
I got slapped in the face with a blessing slap like pow  
And fresh as hell on my bum day  
I look fresh for dinner like niggas do on their b-day, wow I want you to say my name, say my,  
say my name  
Say my name, say my, say my name, say my name now

I want you to say my, say my name, say my name  
Say my, say my name, say my name, say my name loud  
I want you to say my, say my name, say my name  
Say my, say my name, say my name in the crowd  
I want you to say my, say my name, say my name  
Say my, say my name, say my name right now
