

They Don't Know Us

Borgeous

They say we're broken
But we're just broke enough
They say we're all fucked up
Just fucked up enough
We're not lost We're all just wonderers
Turn the page to uncover
Yeah cause they don't see the way we dance
And they don't see the way we love
And they don't see the way we lose ourselves in the moment
They don't know us
They don't know
They don't know us
They say we're losing sleep
That we're caught in a daydream
But we're just free-falling Like litter on the concrete
We're not lost
We're all just wonderers In the light we all discover
Yeah cause they don't see the way we dance And they don't see the way we love
And they don't see the way we lose ourselves in the moment
They don't know us
