Beer Never Broke My Heart

Luke Combs

[Verse 1]
I've had a large mouth bass bust my line
A couple of beautiful girls tell me goodbye
Trucks break down, dogs run off
Politicians lie, gettin' fired by the boss[Bridge]
It takes one hand to count the things I can count on
There ain't much man, that ain't ever lettin' me down[Chorus]
Long neck iced cold beer never broke my heart
Liking diamond rings and football teams have torn this boy apart
Like a neon dream it just don't know me, the bars and this guitar
A long neck iced cold beer never broke my heart
[Verse 2]
Now she was a Carolina blue jean baby
Fire in her eyes that drove me crazy
It was red tail lights when she left town
I didn't know then, I sure do now[Chorus]
That long neck iced cold beer never broke my heart
Liking diamond rings and football teams have torn this boy apart
Like a neon dream it just don't know me, the bars and this guitar
A long neck iced cold beer never broke my heart[Bridge]
Now I got one hand to count the things I can count on
But I got one hand that's drippin' down on a cold one
[Chorus]
'Cause long neck iced cold beer never broke my heart
Liking diamond rings and football teams have torn this boy apart
Like a neon dream it just don't know me, the bars and this guitar
A long neck iced cold beer never broke my heart, no
It never broke my heart
