

# Buzzin' (feat. RaeLynn)

Blake Shelton

Work, work, work, man that's all I ever do  
Been hitting it, getting it, giving it, living them working man blues  
Working on that pick-up, working on that check  
Working on that twerking, man it still ain't working yet Hey, can I get a little, "Hey man"  
Anybody been where I've been  
It just don't stop when you punch that clock  
Gotta rock on right through the weekend  
Gotta keep on keeping on, gotta keep that percolator perking  
Got a wheel, got a way, got a hang, got a how  
And right now I'm just working on a big buzz  
Picking off them floaters from the ice tub  
Sipping them suds and hanging with my buds  
Speaking of buds, who's got a light?  
Gonna probably take all night and I'll be right here  
Chilling like a villain on my redwood deck  
You ain't seen nothing yet  
I'll be getting on my order, until further notice  
I'll be b-b-b-buzzin, b-b-b-buzzin Mm, baby girl when you get a few in you  
Don't you know that you tend to get a little wild  
(Get a little wild, get a little wild child, get a little wild)  
When you're shooting that fireball whiskey  
Get to getting all fireball frisky, you a hot little jockey  
Nothing rocks me like you rocking me on a big buzz  
Picking off them floaters from the ice tub  
Sipping them suds and hanging with my buds  
Speaking of buds, who's got a light?  
Gonna probably take all night and I'll be right here  
Chilling like a villain on my redwood deck  
You ain't seen nothing yet  
I'll be getting on my order, until further notice  
I'll be b-b-b-buzzin, b-b-b-buzzin
