

What We Said (Comme moi) [feat. MAGIC!]

Shakira

I'm living with a broken heart
I never meant to do you harm
Don't ever wanna see you cry, again
And everybody hurts sometimes
I never meant to do you wrong
I know you're gonna be just fine, you said
I wish we could go back in time
See the world with different eyes
Knowing what we both know now
Could've made it work somehow
What we said, what we say
What we make we can't unmake
What we give is what we get
And this is what we're stuck with now
But we said, whatever that we said
What we make you know we can't unmake
What we give is only what we get
And this is what we're stuck with now
I'm living with a broken heart
I never meant to do you harm
Don't ever wanna see you cry, again
But everybody hurts sometimes
I never meant to do you wrong
I know you're gonna be just fine, you said
I wish we could go back in time
Find the road that doesn't wind
Right there darling we would be
Beautiful like harmony
What we said, what we say
What we make, we can't unmake
What we give is what we get
And this is what we're stuck with now
But we said whatever that we said
What we make you know we can't unmake
What we get is only what we gave
And this is what we're stuck with now
I'm living with a broken heart
I never meant to do you harm
Don't ever wanna see you cry, again
But everybody hurts sometimes
I never meant to do you wrong
I know you're gonna be just fine, you said

Do you remember
How you used to get lost in my eyes
(I remember, darling)
Do you remember
How you promised you'd never say goodbye?
I remember,
I remember
I remember But we said and what we said
What we make we can't unmake
What we give is only what we get
And this is what we're stuck with now
I'm living with a broken heart
I never meant to do you harm
Don't ever wanna see you cry, again
But everybody hurts sometimes
I never meant to do you wrong
I know you're gonna be just fine, you said
Again
