

# Lucky Charm

Keith Urban

I was livin' on a landslide  
Fallin' fast until you took my  
Hand, now I won't ever let you go  
Let you go Four-leaf clover and a horses shoe  
Knockin' on wood was all I ever knew  
I'm savin' all my wishing well pennies and  
I got so many ever since you came along Sunlight shinin', baby, roll the dice  
Now that I got you by my side  
We can't lose  
No more waitin' on a shooting star  
I'm betting it all on your pretty heart  
Baby, you're my lucky charm  
Like an angel from the blue sky  
Sent to save me from my dark side  
Yeah, the light inside was fading  
But I found salvation when I fell into your eyes Sunlight shinin', baby, roll the dice  
Now that I got you by my side  
We can't lose  
No more waitin' on a shooting star  
I'm betting it all on your pretty heart  
Baby, you're my lucky charm All I know is  
I got your love, I got your love, baby  
Yes, I do  
I got your love, I got your love, baby  
Oh, I got it, baby  
I got your love, I got your love, baby  
Whoa, oh, oh, whoa  
Sunlight shinin', baby, roll the dice  
Now that I got you by my side  
We can't lose  
No more waitin' on a shooting star  
I'm betting it all on your pretty heart  
Baby, you're my lucky charm
