

# Thicker Than Water

## H2O

My family looks out for me  
Like friends our story never ends  
We've run into the fire  
And somehow water comes to save us There are so few we can depend on  
With blood there is an honor  
We act like we don't care  
But deep inside It's more, more than you can see  
Thicker than water  
It means more, so much more to me  
Thicker than water We've all been struggling since I was three  
How happy can we be?  
We've turned some bad times into good  
Always knowing where we stood  
[Incomprehensible] led us to the water  
We get by on H2O  
But remember what is stronger  
And let it flow It's more, more than you can see  
Thicker than water  
And it means more, so much more to me  
Thicker than water It runs so thick inside my veins  
Through all the heartache and the pain  
And everything I've come to be  
It's more you can see It runs so thick inside my veins  
Through all the heartache and the pain  
And everything I've come to be  
It's more you can see  
Thicker than water  
Means more to me  
Thicker than water  
Means more to me Thicker than water  
Means more to me  
Thicker than water  
Means more to me Thicker than water  
Means more to me  
Thicker than water  
Means more to me
