

# Western World (feat. Raekwon)

## LION BABE

[Verse 1: LION BABE]

In a western town, a western world

Only baby, see

In a western town, a western world

It's hard to find some peace

In the middle of the night, she's on her phone

She can't miss what they say, oh-oh-oh-oh

In a western town, forever young

Restless now, you're on your own

Like the tumbleweed, what you gonna be?[Pre-Chorus: LION BABE]

Hey, young runner

You'll get there faster on your feet

Look for each other

Together we can feel the beat

Western town, get down, get down

[Chorus: LION BABE]

We should know what we're breathing for

The sooner we let it go

Like a tree, we grow, we grow[Verse 2: LION BABE]

In a western town, a western world

So hard to grieve, hmm

In a western town, a western world

Western town, a western world

Side of the road and stop for gold

Feel the beats where you goin', oh-oh-oh-oh

In a western town, you're on your own

Western world, party on

Like the tumbleweed, where you gonna be?

[Pre-Chorus: LION BABE]

Hey, young runner

You'll get there faster on your feet

Look for each other

Together we can feel the beat

Western town, get down, get down[Chorus: LION BABE]

We should know what we're breathing for

The sooner we let it go

Like a tree, we grow, we grow[Bridge: LION BABE & Raekwon]

Wake up, beep on my phone

Wake up, sleep, type alone (That's real)

Wake up, creep, walk alone

Wake up, be in my zone (What it do, sis?)

Wake up, monotone (I see you)

Wake up, chromosome (Yeah, baby, shine)  
Work all night to the bone (Do what you do)  
Eat, breathe, gettin' grown (The Chef)[Verse 2: Raekwon]  
On my Johnny Kemp shit  
Twist, roll a biscuit  
I'm covered in silk, Rae stay consistent  
You know how I pop  
It's just the radiant glow I got that make me keep radio on lock  
All about love, we premiere  
Baby, we here, it's like this, let me lighten your bliss  
Now bring joy to your boy, I insist  
My guy right here, the Most High, said the Devil don't exist  
Pray for us and let 'em say it for us  
Wake up and make the whole world straighten up  
Child, keep stylin', that's the move  
While I be your tool, your tour guide  
And have you flooded in jewels, too  
Usually hidin' in Peru with the crew, with get-downers  
Yeah, y'all know us as Midtowners  
Party with us and pop bottles, them Desperados  
Rollin' up L's in Los Cabos[Chorus: LION BABE]  
We should know, what we're breathing for  
The sooner we let go  
Like a tree, we grow, we grow[Outro: LION BABE]  
We grow, western town  
Get down, get down, get down
