

Wildstar (feat. Foxes)

Giorgio Moroder

I keep dancing in my dreams
Pirouette into your arms
Flying high like you wouldn't believe
Wishing on weightless heart I got carried away on an endless dream
Probably took it way too far
When the glitter falls into the light
I'll be dancing like a wildstar Ahhh, ahhh, ahhh
Glitter falls into the light
And I'll be dancing like a wildstar Light up
Light up
Light up the star
Light up
Light up
Light up the star
I keep dancing in my dreams
Pirouette into your arms
Flying high like you wouldn't believe
Wishing on weightless heart I got carried away on an endless dream
Probably took it way too far
When the glitter falls into the light
I'll be dancing like a wildstar Ahhh, ahhh, ahhh
Glitter falls into the light
And I'll be dancing like a wildstar Light up
Light up
Light up the star
Light up
Light up
Light up the star
Dancing like a wildstar
Dancing like a wild
Dancing like a wild
Dancing like a
Dancing like a
Dancing like a
Dancing like a
Dancing, dancing, dancing, dancing Glitter falls into the light
And I'll be dancing like a wildstar
Glitter falls into the light
And I'll be dancing like a wildstar Ahhh, ahhh, ahhh
Glitter falls into the light
And I'll be dancing like a wildstar
Ahhh, ahhh, ahhh

Glitter falls into the light
And I'll be dancing like a wildstar
Dancing like a wildstar
Dancing like a wildstar
Glitter falls into the light
And I'll be dancing like a wildstar
