

# Steady (feat. Tory Lanez)

Bebe Rexha

Steady

Something 'bout a rapper, something 'bout a singer  
Tryna make a feeling last longer than a linger  
They knew exactly what they were getting into  
He was always sipping, she was something different  
Together they were living, never, ever overthinking  
Falling in madly, running from their issues  
And he's not to blame, and she's not to blame  
Drinking the love that they pour in the cup 'cause it eases the pain  
And he'll never change, she'll never change  
Breathing the hope that they find in the smoke 'cause it eases the pain  
We only love when our  
eyes get heavy  
We only laugh, we only dance when the high gets steady  
Yeah, we only touch when our heads get messy  
We only laugh, only attach when the high gets steady  
When the high gets steady  
Hi-high gets steady  
When the high gets steady  
When the high gets steady  
Hi-high gets steady  
When the high gets steady  
Tory  
I pulled up on you last night  
I didn't know what to do last night  
Pulling on you, put me to my knees, baby  
I was on the D, R, U and Gs, baby  
Keep it G, baby  
I've been way up, honey, way up  
You know what it is, whenever I come through the Cajun  
And you say you get this feeling with me, baby, on the real  
I get the same feeling with you, I know how you feel  
I said, keep it G with me  
'Cause this what I'mma do with you  
I'ma keep it 78 plus 22 with you  
You know what it is when I pull up in that new, new thang  
Looking for a new thang, ah  
We only love when our eyes get heavy  
We only laugh, we only dance when the high gets steady  
Yeah, we only touch when our heads get messy  
We only laugh, only attach when the high gets steady  
When the high gets steady  
Hi-high gets steady  
When the high gets steady  
When the high gets steady

Hi-high gets steady  
When the high gets steady We only love when our eyes get heavy  
We only laugh  
We only dance when the high gets steady  
Yeah, we only touch when our heads get messy  
We only laugh  
Only attach when the high gets steady  
When the high gets steady  
Hi-high gets steady  
Wish we could love  
Sober the buzz but I'm just not steady
