

# Messy

Cas Haley

There's a ring on the phone, but there's nobody home  
I can't get myself out of bed  
I don't know why  
There's a knock at the door, but my mum's at the store  
And I can't get myself off the floor  
I don't know why I am taking you up, as they are bringing me down  
I got a whole lot of messy things, stirring around  
I am taking you up, as they are bringing me down  
I got a whole lot of messy things, stirring around It's so messy working in a world, in the dark  
trying to be a light, trying to make it right  
It's so messy working in a world, in the dark  
trying to be a light, trying to make it right  
There's a spoon in my room that helps me to consume  
The potion that takes away try  
I don't know why  
There's a ring on the phone, but there's nobody home  
I can't get myself out of bed  
I don't know why
