

GIOVANNI

Jamila Woods

[Verse 1]

You might want to hold my comb
When you find out what I'm made of
You might want to follow me and copy all of my mistakes

I'm so nice, so nice

You can't not smile when I smile

And I cry, I cry

It's just the rain so I can grow [Chorus]

Eenie meenie, now you get the message

Eenie meenie miney pick an app description

I'm impressive, you can check my track for reference

Moon and sun, guess reverend blessed it

Come on listen to a quick confession

Water is to oil me to your aggression

I'm protected

Joy said it preyed on me, mama burned sage for me

None can take that energy away from me

I've been up in here since grandmama was a baby, praise me

I be on my Giovanni, tea and honey

Tell it like I see it

Speak it so I be it

My ancestors watch me

Fairytale walking

Black Goldilocks, yeah

My naps just right

You got questions, I know that's right

There must be a reason why

There must be a reason

There must be a reason why

There must be a reason [Verse 2]

Little bitty, you want to call me

A hundred motherfuckers can't tell me

How I'm supposed to look when I'm angry

How I'm supposed to shrink when you're around me

Permission denied to rearrange me

I'm am the Kingdom, I am not your Queen

Hotep better step from up around me

I am not your rib, I am not your Eve

[Chorus]

Any minute now you'll get the message

Eenie meenie miney pick an app description

I'm impressive, you can check my track for reference

Moon and sun, guess reverend blessed it
Come on listen to a quick confession
Water is to oil me to your aggression
I'm protected
Joy said it preyed on me, mama burned sage for me
None can take that energy away from me
I've been up in here since grandmama was a baby, praise me
I be on my Giovanni, tea and honey
Tell it like I see it
Speak it so I be it
My ancestors watch me
Fairytale walking
Black Goldilocks, yeah
My naps just right
You got questions, I know that's right
There must be a reason why
There must be a reason
There must be a reason why
There must be a reason
There must be a reason why
