

Live Like Legends

Ruelle

When it rains, it pours
There will be blood in the water
Cold to the core
Faith falls hard on our shoulders This is our time
No turning back
We could live, we could live like legends
This is our time
No turning back
We could live, we could live like legends
Live like legends
We could live like legends This is our time
No turning back This is our time
No turning back
We could live, we could live like legends
This is our time
No turning back
We could live, we could live like legends
Live like legends
We could live like legends Faith falls hard on our shoulders
But legends never die
