

# Misery

## Good Charlotte

Take a look around, don't you see it  
See that you are the only real face in the room?  
No one here has a clue what you're feelin'  
Don't feel bad, keep your sadness alive Look at all these happy people  
Living their lives  
Look at all these plastic people  
There's nothing inside Look at all these shallow people  
Telling their lies  
Look at all these empty people, people Don't you know  
That misery loves company?  
Yeah, I heard  
That misery was looking for me  
Happiness is a face  
That don't look good on me  
Yeah, I heard  
That misery comes looking for me Whoa, misery's my company  
Whoa, misery is looking for me  
Looking for me The hands are up now, everybody see it  
Everybody's movin', they program their feelings  
They're synchronizing and criticizing  
Don't feel bad, keep your sadness alive Look at all these happy people  
Living their lives  
Look at all these plastic people  
They're dying inside Look at all these shallow people  
Telling their lies  
Look at all these empty people, people  
Don't you know  
That misery loves company?  
Yeah, I heard  
That misery was looking for me Happiness is a face  
That don't look good on me  
Yeah, I heard  
That misery comes looking for me Whoa, misery's my company  
Whoa, misery is looking for me Don't you know this misery loves me?  
Don't you know this misery loves me?  
Don't you know this misery loves me?  
Don't you know this misery loves me? Loves me So you're tired of runnin'  
You're tired of hurting  
You're tired of living in their lies You're tired of listening  
You're tired of hurting  
Keep your sadness alive, alive, alive Don't you know  
That misery loves company?

Yeah, I heard  
That misery was looking for me  
Happiness is a face  
That don't look good on me  
Yeah, I heard  
That misery comes looking for me  
Don't you know  
Misery loves company?  
Yeah, I heard  
That misery was looking for me  
Happiness is a face  
That don't look good on me  
Yeah, I heard  
That misery comes looking for me  
Whoa, misery's my company  
Whoa, misery is looking for me
