

# Euphoria

## Blondie

We had a minute to consider the past  
With only seconds to consider what's next  
And we were just fine  
We were just fine  
Something for nothing and nothing for keeps  
We raised the volume and we turned up the heat  
And we were just fine  
We were just fine Oh, oh, oh, oh, all the lights are low  
Oh, oh, oh, oh, all the lights are low  
Oh, oh, oh, oh, all the lights are low  
Oh, oh, oh, oh, all the lights are low  
We're gonna set it off (go off)  
Come to a big conclusion  
We're gonna set it off  
Do it up right (do it up right)  
We're gonna set it off (go off)  
Come to a big conclusion  
We're gonna set it off  
Do it up right (do it up right) We didn't hurry cause it came in a flash  
We had no feelings for the first or the last  
And we were just fine  
We were just fine  
We don't care if our romance is the rage  
We don't care if our picture's on the front page  
We'll be just fine  
We'll be just fine  
Oh, oh, oh, oh, all the lights are low  
Oh, oh, oh, oh, all the lights are low  
Oh, oh, oh, oh, all the lights are low  
Oh, oh, oh, oh, all the lights are low We're gonna set it off (go off)  
Come to a big conclusion  
We're gonna set it off  
Do it up right (do it up right)  
We're gonna set it off (go off)  
Come to a big conclusion  
We're gonna set it off  
Do it up right (do it up right) Visualisation, my destination  
Euphoria  
Visualisation, my destination  
Euphoria  
Visualisation, my destination  
Euphoria

Visualisation, my destination  
Euphoria We're gonna set it off (go off)  
Come to a big conclusion  
We're gonna set it off  
Do it up right (do it up right)  
We're gonna set it off (go off)  
Come to a big conclusion  
We're gonna set it off  
Do it up right (do it up right)
