

Lost Angel

Heart

As it was before shall it ever, ever be
Hear it on the crying wind, hear it weeping on the sea
Through the winter valley wild and through the darkest night
Here comes the evil news of the coming fight, yeah So love, bring your birds, bring your
feathers of peace
All through the storm let the tides release, yeah yeah yeah
Love, bring your birds, bring your feathers of peace
All through the storm let the tides release Come on down, Lost Angel, find us now
From the clouds above right down to the ground
Lost Angel, come on down Stardust, yeah yeah, we are
And the willow is pushed to bend
Yeah, too much, too much, too much of man
And stardust we will be again
Ho love, bring your birds, bring your feathers of peace
All through the storm let the tides release, yeah yeah yeah
Love, bring your birds, bring your feathers of peace
All through the storm let the tides release Well, come on down, Lost Angel, find us now
From the clouds above right down to the ground Come on, come on down, Lost Angel, find us
now
From the clouds above right down to the ground
Lost Angel Now
Get it now
Get it now Ho, let me know
Let me know
Let me know, yeah Oh
Oo angel
Come on down
Love, bring your birds, bring your feathers of peace
All through the storm let the tides release, yeah yeah yeah
Love, bring your birds, bring your feathers of peace
All through the storm let the tides release Well, come on down, Lost Angel, find us now
From the clouds above right down to the ground Come on, come on down, Lost Angel, find us
now
From the clouds above right down to the ground Lost Angel, come on down
Yeah
