Annotate

It's alright by me, if I let you go
We've done it thousands of times
It's just like Georgia to Maine
Five months alone, lookin down at your feet(Pick it up
I'll pick it up)Im partially for this
Yeah, I'll do it to you
Tell me please it's a sign, to carry on
Sequoias hide me from you
Leaving nothing inside
Except for 100 days and nights(I'll pick it up)
You seem so torn on this
You would again
It's what you're working towards
So do it (so do it)
So do it (Ahh)You seem so torn on this
You would again
It's what you're working towards
So do it (so do it)
So do it (Ahh)If it were up to me
Id probably make you go
Just so you know how i feel
Your mouth is runnin
You better hurry (pick it up)Oh pick it up
Spit it out
Oh spit it out
These are the reasons we speak upYou seem so torn on this
You would again
It's what you're working towards
So do it (so do it)
So do it (Ahh)
