

Tallboy

The Soft Pack

There's a hot pursuit
Between me and my boy
If he would might trick me I can't keep up A menace, a bad thing to be
I've said enough, heard enough obscenity
Time to time there's a recovery
I've got to try out to save the life in me but I feel I need a. T A L L B O Y
T A L L B O why should I try?
If I will just fall behind I remember when I'd do it to myself
To find some stable ground, some mental health A menace, a bad thing to be
I've said enough, heard enough obscenity
Time to time there's a recovery
I've got to try out to save the life in me but I feel I need a.
T A L L B O Y
T A L L B O why should I try?
If I will just fall behind
