

# Room with a View

## The Interrupters

No matter how much the clock goes around  
There's an aching pain  
The sun goes up and the sun goes down  
But it still feels the same  
Your house is just some drywall now  
Your parents moved away I know you got a room with a view up there  
And you're looking down on me  
I know you got a room with a view up there  
Please save a spot for me  
It's been ten years without you  
And all your friends have aged  
Some got married and some had kids  
And some just moved away  
And there's a few that came to live with you  
A few that are on the way I know you got a room with a view up there  
And you're looking down on me  
I know you got a room with a view up there  
Please save a spot for me All the laughter that you missed out on  
Tears in your name  
Your brother and sister are doing great now  
But your mother's never been the same  
And your father's there to comfort them  
On every happy holiday  
I know you got a room with a view up there  
And you're looking down on me  
I know you got a room with a view up there  
Please save a spot for me I know you got a room  
I know you got a room
