

Testify

Blackberry Smoke

It was in the spring on a sunny day
Saw a good boy turn and go the wrong way
He was too busy being hard as stone
To ever realize he was all alone
Wanna testify about the things I've seen
Wash my hands but they never come clean
Testify, some win, some lose
Everybody's gonna have to stand accused, yeah
Saw a little girl in a redneck bar
Ain't so sure she wants to go that far
Can't drink liquor unless she holds her nose
She's about to find out that everything goes
Testify about the things I've seen
Wash my hands but they never come clean
Testify, some win, some lose
Everybody's gonna have to stand accused, yeah
It was in the spring on a sunny day
Saw a good boy turn and go the wrong way
He was too busy looking hard as stone
To ever realize he was all alone
Wanna testify about the things I've seen
Wash my hands but they never come clean
Testify, some win, some lose
Everybody
Testify about the things I've seen
Wash my hands but they never come clean
Testify, some win, some lose
Everybody's gonna have to stand accused, yeah
Wanna testify
Wanna testify
Wanna testify
Testify...
