

Love Stories

Little Daylight

Tell me how do you love stories
Don't wanna be cool, don't wanna get hurt
If I fall down, would someone pick me up?
Does it take a lightning strike
And find a hero here tonight
'Cause I miss you now
I remember how, I was lost in a love story
I didn't notice you were right there
And?? not to fall
So I never was ready to hear your call
Please hear me now,
'Cause I'll never got real and I'll never got ready
And I miss you I could never make
Please hear me out,
'Cause I miss but I don't know how
Don't know when, I don't know when...
