

# Lights On

## Shawn Mendes

Damn, you look so good with your clothes on  
And I'm not trying to come off too strong  
But you know that I can't help it  
'Cause girl you're beautiful And I can't deny I want your body  
But I'm a gentleman so I'll be  
The one who takes it slowly  
'Cause girl you're so beautiful I wanna love you with the lights on  
Keep you up all night long  
Darling, I wanna see every inch of you  
I get lost in the way you move  
I wanna love you with the lights on  
Hold you till the night's gone  
Darling, I wanna see every inch of you  
I get lost in the way you move  
I wanna love you with the lights on  
I like the vibe in this hotel room  
And I'd really like to get to know you  
Start discovering your secrets  
Underneath these very sheets Your skin's so perfect up against me  
Your lips are talking when we don't speak  
And I never wanna leave this  
Cause there's so much left to see I wanna love you with the lights on  
Keep you up all night long  
Darling, I wanna see every inch of you  
I get lost in the way you move  
I wanna love you with the lights on  
And hold you till the night's gone  
Darling, I wanna see every inch of you  
I get lost in the way you move  
I wanna love you with the lights on  
Keep you up all night long  
Darling, I wanna see every inch of you  
I get lost in the way you move  
I wanna love you with the lights on  
Hold you till the night's gone  
Darling, I wanna see every inch of you  
I get lost in the way you move I wanna love you with the lights on  
Keep you up all night long  
Darling, I wanna see every inch of you  
I get lost in the way you move  
I wanna love you with the lights on  
Hold you till the night's gone

Darling, I wanna see every inch of you  
I get lost in the way you move I wanna love you with the lights on  
Love you with the lights on  
Love you with the lights on
