

Ride Or Die (feat. Foster the People)

The Knocks

[Verse 1: Foster the People]

Maybe it's nice to be alone in the end
You know I'm fine living so close to the edge
Who needs a house when I've got all these friends?
They say, are you gonna give up some day?
Are you gonna grow up some day?
Ooh[Pre-Chorus: Foster the People]
I know we're getting older but that don't mean it's over
Ooh

I know we're getting sober but that's not on my mind

[Chorus: Foster the People]

We can do this every night
You can be my ride or die
And we can live this way every day
Go out like dynamite, I'm living life, ride or die
Gonna live this way every day[Post-Chorus: Foster the People]
Live, life, live, ride or die

Live, life, live, ride or die[Verse 2: Foster the People]

Don't need a license when you've got no drive

It feels so right taking the wrong advice

They tell me one day that I'll pay the price

They saying maybe I'll go up in flames

Maybe it'll blow up one day

Ooh

[Pre-Chorus: Foster the People]

I know we're getting older but that don't mean it's over

Ooh

I know we're getting sober but that's not on my mind[Chorus: Foster the People]

We can do this every night

You can be my ride or die

And we can live this way every day

Go out like dynamite, I'm living life, ride or die

Gonna live this way every day[Post-Chorus: Foster the People]

Live, life, live, ride or die

Live, life, live, ride or die[Bridge: Foster the People]

I know we're getting older but that don't mean it's over

Ooh

I know we're getting sober but that's not on my mind[Chorus: Foster the People]

We can do this every night

You can be my ride or die

And we can live this way every day

Go out like dynamite, I'm living life, ride or die

Gonna live this way every day[Chorus: Foster the People]
We can do this every night
You can be my ride or die
And we can live this way every day
Go out like dynamite, I'm living life, ride or die
Gonna live my life, live my life[Post-Chorus: Foster the People]
Live, life, live, ride or die
Live, life, live, ride or die
