

# Live It Up

Brantley Gilbert

It's all around town  
Here's ten cents for mistakes he's made  
It's all word of mouth  
Oh but they say that's the price you pay  
When you're in with the wrong crowd  
Oh look at the mess you've made  
Starring you down, every time you show your face  
Ah to hell with all the small town small talk  
I've had enough  
It ain't their place to judge  
Man I'm giving up  
And I said if you can't live it down  
Might as well live it up  
You live and you learn man  
The worlds going to turn, ain't going to stop you  
And I said if you can't live it down  
Might as well live it up  
Yeah forgiveness is yours in the hands of the Lord  
Ain't nothing they can do  
Hell live it up  
She's made up her mind  
This mistakes going to have a name  
She's in for the nine  
Awe but she just turned 18  
It's a matter of time  
Before she hits these streets  
You say it ain't right  
Aw but she don't wear no ring  
Ah to hell with all the small town small talk  
I've had enough  
It ain't their place to judge  
Man I'm giving up  
And I said if you can't live it down  
Might as well live it up  
You live and you learn man  
The worlds going to turn, ain't going to stop you  
And I said if you can't live it down  
Might as well live it up  
Yeah forgiveness is yours in the hands of the Lord  
Ain't nothing they can do  
Hell live it up  
So let the sinless man, cast the first stone  
And may the judgment in my life, belong to God alone  
And I said if you can't live it down  
Might as well live it up  
You live and you learn man

The worlds going to turn, ain't going to stop you  
And I said if you can't live it down  
Might as well live it up  
Yeah forgiveness is yours in the hands of the Lord  
Ain't nothing they can do  
Hell live it up
