

# Dance, Dance, Dance

## Red Hot Chili Peppers

You got yours and I got mine  
She got his and she got shine  
Under moon and overseas  
She got those and we got these Dance, dance, dance, dance  
All night long yes all night long  
Dance, dance, dance, dance  
We got strong yes we got strong Say hello, it's safe to go Dance, dance, dance, dance  
All night long yes all night long  
Dance, dance, dance, dance  
We got strong as we got strong The light is right, lift here tonight, let's play Give yourself a  
chance to find a way  
The holiness for free is here to stay  
They got these and we got that  
He got his and she got bad  
You got mine but I've got yours  
I got love but you got more Dance, dance, dance, dance  
All night long yes all night long  
Dance, dance, dance, dance  
We got strong as we got strong Say hello, it's safe to go, let's play Give yourself a chance to find  
a way  
The holiness for free is here to stay  
Tell your mom and dad its all ok  
The holiness for free is here to stay You got yours and I got mine  
He got his and she got shine  
We got all but she got high  
Some got hot and then gone by  
Dance, dance, dance, dance  
All night long yes all night long  
Dance, dance, dance, dance  
We got strong as we got strong  
Say hello, its safe to go  
Dance, dance, dance, dance  
All night long yes all night long  
Dance, dance, dance, dance  
We got strong as we got strong  
The light is right, lift here tonight  
Lets make the right, the song of prize let's play
