

# Fall Into Me

Brantley Gilbert

A whisper away from changing everything  
But is it safe to say such dangerous things?  
And your hands are trembling  
Girl, I'm weak in the knees It's times like these  
When silence means everything  
More than anything So fall when you're ready, babe  
Let our kiss count the moments  
And hearts set the pace  
And I'll be your love song  
And I'll love you right off your feet  
Until you fall into me  
Love ain't a race, there's no finish line  
And I love a chase but don't leave me behind  
'Cause, girl, we're both gambling  
But I'm playing for keeps It's times like these  
When patience means everything  
More than anything So fall when you're ready, babe  
Let our kiss count the moments  
And hearts set the pace  
And I'll be your love song  
I'll love you right off your feet  
And I'll fall for you every day  
I'll cherish the moments, time can't erase  
We'll be the love song  
I promise you we're gonna sing  
Girl, when you fall in me  
Girl, when you fall in me  
Come on, baby, fall into me, yeah  
I'm waiting, fall into me, fall into me, fall into me  
A whisper away from changing everything
