

# Make a Smile for Me

Bill Withers

Make a smile for me  
Lately I've been so lonely  
And a smile from you  
Might make these blues go away Stay awhile with me  
Can't you tell I've been lonely  
And a smile from you  
Might make it a nicer day Close your eyes and dream of a sunny place  
Watch the world light up when you smile  
Stay with me and smile at me, sunny face  
Chase the clouds away with your smile  
Close your eyes and dream of a sunny place  
Watch the world light up when you smile  
Stay with me and smile at me, sunny face  
Chase the clouds away with your smile
