

# Hair Body Face

## Lady Gaga

Hair, body, face  
Hair, body, face Your friends are in the other room  
Heard every cruel thing they said  
They're all just trying to be cool  
So I wrote this song in my head  
I'm not mad as long as I am perfect in your eyes, your eyes  
Doesn't make a difference, yeah  
As long as I am perfect in your eyes, your eyes 'Cause baby when I look at you  
I just don't know what to do with you  
A man loves a triple threat  
Did the party room just see that?  
Hair, body, face, for you, triple threat, do it, for ya  
Hair, body, face, for you, triple threat  
Try to leave here, but you won't let me leave  
Saying that if I care what they think, I'll never succeed  
I won't leave here, if you promise to me  
I've got my hair, body, face (Face)  
Hair, body, face for you  
(Hair, body, face, for you, triple threat, do it, for ya)  
For you  
(Hair, body, face, for you, triple threat) Wasn't the "it" girl at school (Not me)  
No, I wasn't queen of the prom  
But don't take me for a fool  
Now I know I've got my own charm  
I'm not mad as long as I am perfect in your eyes, your eyes  
Doesn't make a difference, yeah  
As long as I am perfect in your eyes, your eyes  
'Cause baby when I look at you  
I just don't know what to do with you  
A man loves a triple threat  
Did the party room just see that? Try to leave here, but you won't let me leave  
Saying that if I care what they think, I'll never succeed  
I won't leave here, if you promise to me  
I've got my hair, body, face (Face)  
Hair, body, face for you  
(Hair, body, face, for you, triple threat, do it, for ya)  
For you  
(Hair, body, face, for you, triple threat, do it, for ya) Everything is all right  
When you look in my eyes  
You lift me when I feel small  
Triple threat, I've got it all  
Everything's alright

When you look in my eyes  
You lift me when I feel small  
(Hair, body, face) Try to leave here, but you won't let me leave  
Saying that if I care what they think, I'll never succeed  
I won't leave here, if you promise to me  
I've got my hair, body, face (Face)  
Hair, body, face for you  
(Hair, body, face, for you, triple threat, do it, for ya)  
For you  
(Hair, body, face, for you, triple threat, do it, for ya)  
For you  
(Hair, body, face, for you, triple threat, do it, for ya)  
For you  
(Hair, body, face, for you)  
Hair, body, face, for you
