

Heart Attack (Snakehips Remix) [feat. Owl Eyes]

Flight Facilities

How far out have i got to move?
Oh i've got to get next to you
but you're so far away
searching for a heart another world away
you're all i need and now if you knew
i can't operate without you
No i can't never live another day
fall into the floor
you're my heart attack
heart attack, heart attack
baby
lines on your face
tells a story that burns you bad
could you go there again?
and although i'm longing for your embrace
it's still a feeling that i wish i could end
now i feel like i'm crazy
how far out have i got to move?
oh i've got to get next to you
but you're so far away
searching for a heart another world away
you're all i need and now if you knew
i can't operate without you
No i can't never live another day
fall into the floor
you're my heart attack
heart attack, heart attack, heart attack
baby
you're my heart attack
heart attack, heart attack, heart attack
baby
you're my heart attack
(Repeat)
