

# Brother

Aaron Smith

[Verse 1]

If I could, I would, I'd start again  
But here I am again at 3 A.M  
With a drink in my hand  
It's getting late and I am wasted  
If I could, I would, I'd start again [Pre-Chorus]  
Swear that the night got colder  
Can't sleep on someone's shoulders  
So tired of going nowhere

[Chorus]

Fade me out  
And save me now  
Pull me under  
'Cause nobody wants me  
Give me time  
And ease my mind  
Be my brother  
'Cause nobody wants me [Verse 2]  
We both know that I've seen better days  
I could really use a friendly face  
'Cause it's all that I have  
I can barely breathe and I'm aching  
It's bittersweet familiar days

[Pre-Chorus]

Swear that the night got colder  
Can't sleep on someone's shoulders  
So tired of going nowhere [Chorus]

Fade me out  
And save me now  
Pull me under  
'Cause nobody wants me  
Give me time  
And ease my mind  
Be my brother  
'Cause nobody wants me [Outro]  
Don't leave me to die now  
Teach me to fight  
Don't leave me to die now  
Teach me to fight
