

# Way Back

Brantley Gilbert

I guess some things never change  
It's been a while since I been around  
It still feels like goodbye comin' home  
To what's left of our hometown  
Stopped by and I saw momma, first thing she said  
You know your girl's home too  
Ain't been in town ten minutes and the grapevine's  
All about me and you  
'Cause baby we go Way back  
Me and you and this town  
We been through it  
You could say that  
I'm still the same ol' boy in love  
With the same ol' flame that got away  
And never gave my heart back  
Aww, and that same ol' flame burns  
Like it was burnin' way back  
It's burnin' way back  
Got a call from your best friend, Becky  
Says you're hangin out at her place  
Guess you heard I was home and you wouldn't mind takin'  
A ride for old time's sake  
Pulled up, lost my breath  
How'd you get more beautiful, lemme getcha door  
Yeah, that shotgun seat's still yours  
Your bare feet up on the dashboard  
Girl, you take me Way back  
Me and you and this town  
We been through it  
You could say that  
I'm still the same ol' boy in love  
With the same ol' flame that got away  
And never gave my heart back  
Aww, and that same ol' flame burns  
Like it was burnin' way back  
Way back  
Take a left at the Baptist church  
Had our first kiss in the back  
Cross the tracks, take a right where I kissed you goodbye  
Didn't have to be our last  
So girl, I came back  
When it comes to you and me, girl

You could say that  
Goodbye ain't never meant a thing  
And we goWay back  
Me and you and this town  
We been through it  
You could say that  
I'm still the same ol' boy in love  
With the same ol' flame that got away  
And never gave my heart back  
Aww, and that same ol' flame burns  
Like it was burnin' way backLike it was burnin' way back
