

# Now Or Never (feat. Mary J. Blige)

## Kendrick Lamar

We on?  
Aight  
1, 2, 3, go! Waking up in a dream  
Sleepwalking on another big stage  
You never heard peace 'til you hear people scream  
Your name and your song, I'm so far away  
From the place I used to be, struggling usually  
Look at the newer me, fate pursuing me  
I can feel the energy in the air  
It feel like I'm supposed to be here Everywhere I go I'm getting so much love  
Fans, the stars, everyone  
Sayin how they can't wait for the LP  
And I'm gonna blow  
They believe in me  
Feel so good in what you do  
Helps somebody else get through That's why I do the best I can  
Because I know how blessed I am I'm so high I can touch the sky  
I know it's my time And it's now or never  
I shine so bright I light the night  
And it feels so right, ain't nothing better  
A fool if I take it all for granted  
A smart man if I keep my feet planted  
To the earth cause the people that hurt can understand it  
You speakin' outlandish  
I'mma show you how to make it all work  
Another plan, it a short term goal for me  
A record sold for me  
It's just more of me in your ear  
For you to hear Kendrick persevere  
Defenses I feel relentless  
Ambition with a clear vision  
Takin' off I ain't takin off these Pistons  
I'm takin' off on the inner me - you're distance  
Came across me, how much it cost me  
To get you out my business I set a plan, it's a short term goal, no sky is the limit  
I'm past that, now pass that  
Award, not one but four  
Times two plus yours I see myself performing there (K.dot)  
Sold out shows where the room is packed  
Sitting at the Grammy's winning five awards See myself on big billboards  
Traveling around the world with endorsement deals  
Can't imagine how it feels

That's why I'm smiling everyday  
Because my dream ain't far away I'm so high I can touch the sky  
I know it's my time  
And it's now or never  
I shine so bright I light the night  
And it feels so right, ain't nothing better You looking at me and you tell me I'm blessed  
Calculated my steps, my heart, my breath  
Breathe hums? of a victory and vividly  
You see me when at my best, my worst  
This verse dedicated to the days that I slept  
With a curse research my paid dues I'm reimbursed  
I burst in the crowd with a voice and crown  
I'm a King on the prowl and I see mama smile?  
And I vow on the tape that I'll never break  
You can break bread with me now  
We can all take a bow on the edge of the pedestal  
Then scream out loud that we made it off the avenue  
And walked that mile In the darkness I often sit back  
And get lost in the rap that I wrote  
When you told me that it spoke to your soul  
I was talking to you  
I was walking it through every ghetto  
Tell success hello  
We here And I'm so happy I cry  
Cause I can't believe  
All the things I ever wanted  
Are finally happening for me  
And it's so surreal That I almost feel  
Any minute I can wake up  
From this fantasy  
When you pray so hard  
And you've come so far  
And you know that it's the time for you lift your heart  
And I'm gunna do it  
Watch me  
I'm so high I can touch the sky  
I know it's my time  
And it's now or never  
I shine so bright I light the night  
And it feels so right, ain't nothing better  
I'm so high I can touch the sky  
I know it's my time  
And it's now or never  
I shine so bright I light the night  
And it feels so right, ain't nothing better
