

# You Taught My Heart to Sing

[Dianne Reeves](#)

We meet and it begins  
The sound of violins  
The song of birds high on the wing  
You taught my heart to sing Why does this heart of mine  
Feel like a valentine?  
You smile and suddenly it's spring  
You taught my heart to sing My heart was an empty shell  
Then you came along  
Now my heart's a carousel  
Filled with song  
The miracle of you  
Will last my whole life through  
You're all I'll keep remembering  
You taught my heart to sing My heart was an empty shell  
Then you came along  
Now my heart's a carousel  
Filled with song  
The miracle of you  
Will last my whole life through  
You're all I'll keep remembering  
You taught my heart to sing You taught my heart  
You taught my heart to sing  
You taught my heart to sing
