

Drinkin' Games

Chris Lane

I can already see it coming
The way you're two drinks in
And you're spinning 'round on the floor
I ain't sure what you're sipping
But I'm sure you're sipping something
That'll get you rolling the dice
To see if I'm still yours Cause when it starts rolling off your lips
Baby I'm all in You say it all when you say that you miss me
Say my name when you lean into kiss me
You play it off and blame it on the whiskey
Cause you're feeling all tipsy
It's game over when you cross that line
I lose every time
When you start drinking
Thats when you get to thinking of
Swinging right back into my arms
Girl, I can't shake it, No I can't take it
When you start playing drinking games with my heart You pull my shirt and you get a little
closer
With the buzz in your eyes and the smell of lies on your breath
Girl you and I know you would never do it sober
But all it takes is one too many for you to forget And even though I'll never win
Baby here we go again You say it all when you say that you miss me
Say my name when you lean into kiss me
You play it off and blame it on the whiskey
Cause you're feeling all tipsy
It's game over when you cross that line
I lose every time
When you start drinking
Thats when you get to thinking of
Swinging right back into my arms
Girl, I can't shake it, No I can't take it
When you start playing drinking games with my heart
You say it all when you say that you miss me
Say my name when you lean into kiss me
You play it off and blame it on the whiskey
Cause you're feeling all tipsy
It's game over when you cross that line
I lose every time When you start drinking
Thats when you get to thinking of
Swinging right back into my arms
Girl, I can't shake it, No I can't take it

When you start playing drinking games with my heart You can tell when I'm a little bit lonely
I know myself and I'm giving in slowly
You pour it strong, sip it all night long
Then ya get what you want and you're gone in the morning
