See my plug is a white boy
we selling kush, not white boy

See my plug is a white boy
we selling kush, not white boy

Yeah, my trap going techno

Got the party jumping like, got the party jumping like
Got the party jumping like, got the party jumping like
Jumping like, jumping like, jumping like, jumping like
Like, like, like, like
trap going techno

I got the Club jumping like a thousand jumping jacks (you know)
Spending money, see me burning
through these oven racks

The club is packed front to back, man, I'm loving that (you know)
And all these ladies want my babies, that's a fucking fact
See the club is in
molly's world

I think your girl geeking on that white, girl Yeah, my trap going techno
Yeah, my trap going techno
Yeah, my trap going techno
Yeah, my trap going techno

Got the party jumping like, got the party jumping like
Got the party jumping like, got the party jumping like
Jumping like, jumping like, jumping like, jumping like
Jumping like,
jumping like
trap going techno

End :)
