

# Step Up

Samantha Jade

Boy, No matter what we go through  
You step up, I'll step up too  
It don't matter what the haters say  
As long as you are my boo  
No matter how hard it gets This love will have no regrets  
As long as we'll be  
Stepping on the dance floor  
It's me and you Feel the rhythm of the beat  
That's my heart  
Cupid shot me with an arrow  
From the start  
And you know that it's your loving that's got me trapped  
Every time I try to leave, you bring me back  
So much harder at times I cried a river  
You dried my eyes and brought me back to laughter  
And when I lay next to you I want to wake up  
And when I break up  
It's only to make up Boy, No matter what we go through  
You step up, I'll step up too  
It don't matter what the haters say  
As long as you are my boo  
No matter how hard it gets This love will have no regrets  
As long as we'll be  
Stepping on the dance floor  
It's me and you  
And when the symphony plays, I feel my feet  
Lifting from underneath  
You grab my hand  
Spin me around  
And right before I fall  
You catch me and you say  
Baby, it'll be okay  
Just look into my eyes and we will make another day Boy No matter what we go through  
You step up, I'll step up too  
It don't matter what the haters say  
As long as you are my boo  
No matter how hard it gets This love will have no regrets  
As long as we'll be  
Stepping on the dance floor  
It's me and you And if we don't step up  
We'll lose our groove  
So confused, don't know which way to move

Hold my hand and let me know that you feel me too  
Look into my eyes and tell me  
Baby I love you  
You'll never get wet 'Cause I'll be your umbrella  
And we can make it through any kind of weather  
If you step up  
I'll step up  
Boy  
'Cause I'm trying to be with you forever Boy  
No matter what we go through  
You step up, I'll step up too  
It don't matter what the haters say  
As long as you are my boo  
No matter how hard it gets This love will have no regrets  
As long as we'll be  
Stepping on the dance floor  
It's me and you  
step up(yey)  
step up  
step up  
step up (ohhhhh) Boy No matter what we go through  
You step up, I'll step up too  
It don't matter what the haters say  
As long as you are my boo  
No matter how hard it gets  
This love will have no regrets  
As long as we'll be  
Stepping on the dance floor  
It's me and you Boy  
No matter what we go through  
You step up, I'll step up too  
It don't matter what the haters say  
As long as you are my boo  
No matter how hard it gets  
This love will have no regrets  
As long as we'll be  
Stepping on the dance floor  
It's me and you
