

Caretaker (feat. SZA)

DRAM

I'll take care of you, I will
Even if I got a man now
I heard you a fan now
It's a little bit too late to take care of me
You could still
Even if I got a man now
'least you know where I stand now
Cause i've been there cause i've been there
I've been there
Tell me everything you think I wanna hear
I'll take care of you, I will
Even if I got a man now
Cause I been fucking fans now
[Verse 2: D.R.A.
Still let me take care of you
Even if you got a man now
Cause I been fucking fans now
In the back seat of my van now
Still I'll take care of you
Even if you got a man now
Fuck that nigga I never shake his hand now
That's why I'll be there
Ima be there, there, there (say it with me)
Cause I wasn't there
I swear, I'll be there just let me take care of you... of you
