

Watch Me Rise

[Mikky Ekko](#)

When it's cold out
 When the night is still and you're standin' alone
 I'll be racin' when the lights go out
 And you're losin' control Oh, higher, higher, higher we go tell me, tell me
 We're close enough to touch the Sun, the Sun
 Higher, higher, higher we go tell me, tell me
 The journey's only just begun, begun I I I'm still standin', I I I'm still climbin'
 Even when the rest are fallin', the rest are fallin'
 The rest are fallin'
 I I I'm still standin', I I I'm still climbin'
 Even when the best are fallin', the best are fallin'
 The best are fallin', you say, say my name
 Cuz once I get my head above the clouds
 I'm neva comin' down say, say my name
 Cuz once I get my head above the cloudy skies
 Watch me rise watch me rise!
 Now paranoia's settin' in and I'm fallin' from these stars again
 While every part of me screams, hold on
 Cuz if you can't learn to bend then you break
 Oh, my God, how long does it take?!
 Every lesson we learned took so long but it made us strong I I I'm still standin', I I I'm still
 climbin'
 Even when the rest are fallin', the rest are fallin'
 The rest are fallin'
 I I I'm still standin', I I I'm still climbin'
 Even when the best are fallin', the best are fallin'
 The best are fallin', you say, say my name
 Cuz once I get my head above the clouds
 I'm neva comin' down say, say my name
 Cuz once I get my head above the cloudy skies
 Watch me rise watch me rise! Higher, higher, higher we go
 Right into the fire we go
 I I I'm still standin', I I I'm still climbin'
 Even when the rest are fallin', the rest are fallin'
 The rest are fallin'
 I I I'm still standin', I I I'm still climbin'
 Even when the best are fallin', the best are fallin'
 The best are fallin', you say, say my name
 Cuz once I get my head above the clouds
 I'm neva comin' down say, say my name
 Cuz once I get my head above the cloudy skies
 Watch me rise
