

# Shadows

## A Skylit Drive

I am alone  
You have betrayed me  
Run from the shadows of your apathy  
I feel alive  
Now it's your time to beg for your life  
So beg  
Beg for your life  
Beg for your life  
So wake me, wake me when you're ready to go  
We don't have time to take this slow  
You make me, make me wanna lose control  
And there's one thing you ought to know  
That it's such a shame  
I'd rather die than it be this way  
But if one of us has to go just know  
I will dig your grave  
I will dig your grave  
I am the end  
Look what you've made me  
I run the shadows  
They belong to me  
Nowhere to hide  
Now it's your time to beg for your life  
So beg  
Beg for your life  
Why don't you beg?  
Beg for your life  
So wake me, wake me when you're ready to go  
We don't have time to take this slow  
You make me, make me wanna lose control  
And there's one thing you ought to know  
That it's such a shame  
I'd rather die than it be this way  
But if one of us has to go just know  
I will dig your grave  
I will dig your grave  
So wake me, wake me when you're ready to go  
We don't have time to take this slow  
You make me, make me wanna lose control  
So wake me, wake me when you're ready to go  
We don't have time to take this slow  
You make me, make me wanna lose control

And there's one thing you ought to know  
That it's such a shame  
I'd rather die than it be this way  
But if one of us has to go just know  
I will dig your grave  
I will dig your grave
