

With You (feat. Jack Wilby)

Cedric Gervais

There's something I can't hide
You're always in my head
Something I can't deny, no
You take me to that place
A place I can't resist
Loving you is bliss, I've no doubt I'm in Heaven when I'm with you
I'm in Heaven when I'm with you
When I'm with you, when I'm with you
When I'm with you, when I'm with you
When I'm with you
When I'm with you, when I'm with you
When I'm with you, when I'm with you
When I'm with you
When I'm with you
There's something I can't hide
You're always in my head
Something I can't deny, no
You take me to that place
A place I can't resist
Loving you is bliss, I've no doubt
I'm in Heaven when I'm with you
I'm in Heaven when I'm with you
When I'm with you, when I'm with you
When I'm with you, when I'm with you
When I'm with you
When I'm with you, when I'm with you
When I'm with you, when I'm with you
When I'm with you
When I'm with you
