

# Over

## Ashanti

Chorus: Can't believe that it's over, baby  
for every bruise on my heart, you gave me  
See we tried, but we'd fight then we cried  
and now it's over, babe, it's over babe Can't believe that it's over, baby  
For every bruise on my heart, you gave me  
See we tried, but we'd fight then we cried  
so it's over, babe, it's over babe When I met you I knew you would be the one for me  
'Cuz looking at you had me feelin' kinda crazy  
And what you asked, I almost did it automaticly  
But it was nothing compared to the joy you gave me  
Although I know that what we had it wasn't perfect, babe  
You fooled around, but see back then it didn't faze me  
I thought by stayin', try to change you would be worth it, babe  
But now I see that tryin' to change you only changed me  
All these tears, and all of your lies  
All these years, and now we're sayin' "goodbye"  
It's over babe Can't believe that it's over, baby  
for every bruise on my heart, you gave me  
See we tried, but we'd fight then we cried  
and now it's over, babe, it's over babe (over babe) Can't believe that it's over, baby (over babe)  
for every bruise on my heart, you gave me  
See we tried, but we'd fight then we cried (tried, fight, cried)  
and now it's over, babe, it's over babe (over babe) Now I'm thinkin' that I never should have  
dealt with you  
All this screamin' and this yellin' that we go through  
Raining, late at night I'm sittin' waitin' up for you  
Just to tell you how I hate who you turned in to  
See ain't no way I'm gonna sit and take this shit from you  
I'll never play another day of being your fool  
I wasted all my time on somethin' that just wasn't true  
I should have known that I could never ever change you  
All these tears, all of your lies  
All these years, now I'm sayin' "goodbye"  
It's over babe Can't believe that it's over, baby  
for every bruise on my heart, you gave me  
See we tried, but we'd fight then we cried  
and now it's over, babe, it's over babe (over babe) Can't believe that it's over, baby (over babe)  
for every bruise on my heart, you gave me  
See we tried, but we'd fight then we cried (tried, fight, cried)  
and now it's over, babe, it's over babe (over babe) I'll never, forget, what you did to me  
So I'm gone, I'm leavin', leavin', baby  
I'll never, forget, what you did to me

So I'm gone, I'm leavin', leavin', baby  
Whenever, you see me, don't even speak  
I'll never, forget, what you did to me  
Whenever, you see me, don't even speak  
I'll never forget what you did to me Can't believe that it's over, baby  
for every bruise on my heart, you gave me  
See we tried, but we'd fight then we cried  
and now it's over, babe, it's over babe (over babe) Can't believe that it's over (over babe)  
for every bruise on my heart, you gave me  
See we tried, but we'd fight then we cried (tried, fight, cried)  
and now it's over, babe, it's over babe (over babe x2) Can't believe that it's over, baby (mm.)  
for every bruise on my heart, you gave me (bye)  
See we tried, but we'd fight then we cried (tried, bye, cried)  
and now it's over, babe, it's over babe (over babe x2) Can't believe that it's over, baby (it's over  
babe)  
But every bruise on my heart, you gave me (over babe)  
See we tried, but we'd fight then we cried (tried, fight, we cried)  
and now it's over, babe, it's over babe (over babe x4) I'll never, forget, what you did to me  
So I'm gone, I'm leavin', leavin', baby  
I'll never, forget, what you did to me  
So I'm gone, I'm leavin'
