

# I've Done Love

Jana Kramer

Just 'cause I don't wake up with a bottle  
And my blood don't know the fire of cocaine  
Just 'cause my skin don't know the sting of a needle  
That don't mean that I don't know the pain 'Cause I've taken hits, woke up hungover  
Gone on benders stone cold sober  
Slammed the door right off the hinges  
Hotel rooms and midnight binges  
Wrecked my life, had too much  
Of things I swore I'd never touch  
So don't tell me I've never done the hard stuff  
'Cause I've done love  
I've done love  
I don't get my fix in some back alley  
My tongue still knows the taste of ecstasy  
We're all on the road to chasing happy  
But it ain't a thrill inside a pill that makes a junkie out of me 'Cause I've taken hits, woke up  
hungover  
Gone on benders stone cold sober  
Slammed the door right off the hinges  
Hotel rooms and midnight binges  
Wrecked my life, had too much  
Of things I swore I'd never touch  
So don't tell me I've never done the hard stuff  
'Cause I've done love  
Yeah, I've done love Love, love what I need  
Up so high, but on my knees  
In the dark and on the street  
I've done love, or has it done me?  
Love, love what I need  
Up so high, but on my knees  
In the dark and on the street  
I've done love, or has it done me? I've taken hits, woke up hungover  
Gone on benders stone cold sober  
Slammed the door right off the hinges  
Hotel rooms and midnight binges  
I've touched the sky, I've had it all  
I've had too much, I've had withdrawals  
So don't tell me I've never done the hard stuff  
'Cause I've done love  
Yeah, I've done Love Love, love what I need  
Up so high, but on my knees  
In the dark and on the street

I've done love, or has it done me?
