

Hold You Tight

Diplo

I'll hold you tight
All through the night
Anything that you want
All through the night
Boy you're gonna see
How good it can be
Just come to me
All through the night I'll hold you tight
All through the night
Anything that you want
All through the night
Boy you're gonna see
How good it can be
Just come to me
All through the night
I'll hold you tight
All through the night
Anything that you want
All through the night
Boy you're gonna see
How good it can be
Just come to me Boy you're gonna see
How good it can be
Just come to me
All through the night
I'll hold you tight
All through the night
Anything that you want
All through the night
Boy you're gonna see
How good it can be
Just come to me
All through the night
I'll hold you tight
All through the night
Anything that you want
All through the night
Boy you're gonna see
How good it can be
Just come to me I'll hold you tight
All through the night
Anything that you want

All through the night
Boy you're gonna see
How good it can be
Just come to me
All through the night I'll hold you tight
All through the night
Anything that you want
All through the night
Boy you're gonna see
How good it can be
Just come to me
All through the night I'll hold you tight
All through the night
Anything that you want
All through the night
Boy you're gonna see
How good it can be
Just come to me
All through the night I'll hold you tight
All through the night
Anything that you want
All through the night
Boy you're gonna see
How good it can be
Just come to me
