

Slow Wind

R. Kelly

Girl, I want to be alone with you
Just to see what you can do
Ow, you're dancin' all over me
Baby, this is like some kind of fantasy
The way you move, you're teasing, girl
So tonight I want you in my world
There you go again, girl, on my mind
See you in my dreams all the time
Ow, baby girl, you're so fine
Standing in front of me
Now will you wind for me
Slow wind for me
Will you wind for me
Slow wind for me
Will you wind for me
Slow wind for me
Will you wind for me
Slow wind for me
Girl, the time has come
To show and prove
I've seen enough, I wanna feel the truth
Put your voodoo on me, babe
Kiss my lips
And curse me, babe
show me how you do your magic, babe
lead me to your secret jungle, babe
You're a Jamaican queen
im an American king
Let's get together
And make sweet love
Let's get together
And mix cultures
Let's get together
And change the world
Wind for me, jamaican girl
