

50 Candles

Boyz II Men

Intro:

It's gettin' kinda dark already, should i light 'um? Verse:

Hey baby i'm ready, i'm oh so ready

I wanna make love ii you, hey

Take 'em off, throw 'em down

Come here and let me feel what's in front of me

The outside world is of no concern

Just let our bodies and the candles in the room burn

With feverish passion uncontained Chorus:

Feels like one of those nights

Lady, i'm in need of love in a hurry

50 candles burn bright

And all is right, as our bodies unite

Take our time, do it right

Verse:

Give me yoru hand touch me right here

Oh so good want it more and more Each moment yours fingers linger all around

As i kiss you in the place where your composure comes undone

And your mind runs

We'll make love 'til the sun completely rises

Come play with me

Let me be the toy

That fulfills your needs

'cause i'm yours tonight and you're all mine, roll with me

Don't be afraid let the feeling take you away

Ii a world of ecstasy

Where all you got ii do is be free and give your all and all

Chorus:

Feels like one of those nights

Lady, i'm in need of love in a hurry

50 candles burn bright

And all is right, as our bodies unite

Take our time, do it right Rap:

Come and get this, waited all my life for your touch and soft kiss

And life will never be the same, while ya moan and groan

I hear your voice call my name

Holding your body like a plastic molding

Your soul i'll be controlling

As the candles burn, we toss and turn

From night ii day, all our pleasures we learn

Come and play with me tonight's our night baby,

50 candles burn bright

Come and roll with me
Moke love ii me
Hold on tight
It's going ii be a bumpy rideChorus:
Feels like one of those nights
Lady, i'm in need of love in a hurry
50 candles burn bright
And all is right, as our bodies unite
Take our time, do it right
