

Last Night

Timeflies

Last night, the last thing I remember is you
You were saying it's the last time
But last night, baby, what did we do? Blacked out, passed out
Woke up straight cracked out
With a cracked phone and no credit cards
Done gone in cause I'm cashed out
Hella faded, I maxed out
Sheets down, her ass out
Don't remember, if I had to guess
I beat it up, she tapped out Oh my God, did it again
We can't stop, but we could pretend
Swear I'm not ever drinking again
Cause when we hit the bottle
We'll be waking up tomorrow saying
Last night, the last thing I remember is you
You were saying it's the last time
But last night, baby, what did we do? Seeing double, I'm in trouble
There's more bottles and more bubbles
And more bitches in the penthouse
And they didn't come to cuddle
From the club to the lobby
We gon' need ourselves a shuttle
Mixing caviar and Pérignon
And anything with truffles Oh my God, did it again
We can't stop, but we could pretend
Swear I'm not ever drinking again
Cause when we hit the bottle
We'll be waking up tomorrow saying
Last night, the last thing I remember is you
You were saying it's the last time
But last night, baby, what did we do? On a mission tonight like you're supposed to
Got that look in your eye like I'mma show you
Don't be acting surprised, I could've told you
If you was heading home, you know it wouldn't be alone
I told ya Last night, the last thing I remember is you
You were saying it's the last time
But last night, baby, what did we do?
What did we do? I said
Last night, the last thing I remember is you
You were saying it's the last time
But last night, baby, what did we do?
Baby, what did we do?

Last night, the last thing I remember is you
You were saying it's the last time
But last night, baby, what did we do?
Baby, what did we do last night
