

# Vampires (feat. Femi Kuti)

## Thievery Corporation

They'll gain the world but lose their souls  
They'll gain the world but lose their souls Don't believe politicians and thieves  
They want our people on their bended knees  
Pirates and robbers, liars and thieves  
You come like the wolf  
But dressed like the sheep If you go to Lagos, what you find, vampires  
If you go to Kinshasa, what you find, vampires  
If you go to Darfur, what you find, vampires  
If you go to Malabo, what you find, vampires Lies and theft  
Guns and debt  
Life and death  
IMF  
When the bank man comes to your door  
Better know you'll always be poor  
Bank loans and policies  
They can't make our people free You live on the blood of my people  
Everyone knows you've come to steal  
You come like the thieves in the night  
The whole world is ready to fight If you go to Lagos, what you find, vampires  
If you go to Kinshasa, what you find, vampires  
If you go to Darfur, what you find, vampires  
If you go to Malabo, what you find, vampires Lies and theft  
Guns and Debt  
Life and Death  
IMF  
They gained a war but lose their soul  
They gained a war but lose their soul You live on the blood of my people  
Everyone knows you've come to steal  
You come like the thieves in the night  
The whole world is ready to fight If you go to Lagos, what you find, vampires  
If you go to Kinshasa, what you find, vampires  
If you go to Darfur, what you find, vampires  
If you go to Malabo, what you find, vampires Lies and theft  
Guns and Debt  
Life and Death  
IMF
