

# Star Power (feat. Wale)

## Young Dolph

Aye, have you ever met a nigga that can make anything happen?  
I got star power  
I'm talking about making anything happen dumb ass niggaShe do what I tell her  
I got star power, star power  
Smoked a blunt, and got some head in the shower, Whoa  
Pulled me upward four [?] and called the bitch an uber driver, Hello  
I killed my riffle twenty four, they say I'm suicidal  
I might come turn up your trap I got star power  
I might get you wet then send your moma some flowers  
I get paid by the pound, not paid by the hour  
I got star power  
New ferrari came with 600 horse power  
You not welcome in my trap house if you're selling powder  
That my favorite movie, but nah I can't touch that blow  
Never will I let my downfall be a ho  
Fuck what you talking bout  
I just gave my little bitch a pill  
Call me Mr. Cosby  
First name Bill  
First name playing with  
Last name Mills  
Celebrated crack a painted [?]  
Pour up, nigga chill  
I do whatever that I want to do  
She do whatever that I want her to  
Valentino, low talk  
Plain rollie with no rock  
I'm only chasing Benjamins, no thots  
She got no panties and I got no top  
She do what I tell her  
I got star power, star power  
Smoked a blunt, and got some head in the shower, Whoa  
Pulled me upward four [?] and called the bitch an uber driver, Hello  
I killed my riffle twenty four, they say I'm suicidal  
I might come turn up your trap I got star power  
I might get you wet then send your moma some flowers  
I get paid by the pound, not paid by the hour  
I got star powerStar power  
That flow got me this way  
That's star power, shine  
Like ghost timing [?]  
Ya'll hope ya'll be on top

But nah, that's Ralph and Dolph in that gang  
 I got some doors caught in that trap  
 But ya'll don't trap, ya'll talk a good game  
 DMV be where the realest be  
 We ain't never need the industry  
 37 that is South East  
 Got 37 niggas in the streets  
 Star power  
 Heard they selling with the numbers now  
 What you making every month again  
 I break a booth and probably double it  
 That's star power, moon power  
 My girls shoes Miu Miu out the wazoo [?]  
 When ya'll cannot move like her, she's too bodied, too savage  
 Star power  
 Fuck a doctor, nigga cop flowers  
 I'm a [?] nigga, whole squad in now  
 And what me and Dolph got, don't doubt itShe do what I tell her  
 I got star power, star power  
 Smoked a blunt, and got some head in the shower, Whoa  
 Pulled me upward four [?] and called the bitch an uber driver, Hello  
 I killed my riffle twenty four, they say I'm suicidal  
 I might come turn up your trap I got star power  
 I might get you wet then send your moma some flowers  
 I get paid by the pound, not paid by the hour  
 I got star powerShe do what I tell her  
 He get what I sell him  
 Balling out of control  
 Now all my old hoes, they jealous  
 Look at me wrong my lil'nigga  
 Will put one in your melon  
 My blunt fully loaded  
 Just like my weapon  
 Real nigga of the century  
 You a fuck nigga ain't no care to me  
 All I do is get it, get it, get it, get it nigga  
 Called your bitch told her to come over and bring her best friend with herShe do what I tell her  
 I got star power, star power  
 Smoked a blunt, and got some head in the shower, Whoa  
 Pulled me upward four [?] and called the bitch an uber driver, Hello

 I might come turn up your trap I got star power  
 I might get you wet then send your moma some flowers  
 I get paid by the pound, not paid by the hour
